

GPS MAP60 CSx

- The GPSMAP 60CSx is a refreshing upgrade of the GPSMAP 60CS.
- This unit features a new, highly sensitive GPS receiver that acquires satellites faster and lets users track their location in challenging conditions, such as heavy foliage or deep canyons.
- The GPSMAP 60CSx also incorporates a barometric altimeter for extremely accurate elevation data and an electronic compass that displays an accurate heading while standing still.
- Each unit comes with a blank 64 MB microSD card. Owners of these new x-series handhelds can also purchase new microSD cards that are pre-loaded with MapSource® Topo and inland lake maps, BlueChart® marine cartography, and City Navigator™ street maps.
