Ranger ‘X’ Series

Ultra-rugged for all environments

- The next generation Ranger is now available in two models, the economical 300X and the powerful 500X.
- With two new CompactFlash slots (CF) and a Secure Data (SD) slot you increase data storage and add multiple accessories such as GPS, GPRS, RFID readers and other CF devices.
- The waterproof Ranger combines military-grade durability with Windows Mobile 5.0 software and up to 512 MB of Flash memory.
- It handles extreme heat, up to 60°C and extreme cold, down to -30°C.
- The Ranger meets or exceeds the 810F military and IP67 standards for drops, vibration, altitude, dust, corrosion and water immersion.
